

CASE FOR GIVING

Please assist me with developing a specific case for supporting charities through the CFC by providing a brief summary of the most critical local, national, and/or international issue(s) your organization and/or your member charities are addressing e.g. environment, animals, health, children etc. (please quantify).

Last year these stories were used in campaign materials. It was very effective way to bring the agency programs to donors attention.

Also, please provide an example of what type of service can be provided by an annual donation of \$100 to your organization. Following are a couple of examples:

Critical Issue examples:

20% or residents under age 65 have no health insurance from an employer's plan or public program such as MediCal. 3,000 children (in your area or county) are not covered by any medical plan.

Services provided examples:

\$100 can provide emergency food for five families for one week.

\$100 can provide enough vaccine to protect 1,700 children from tuberculoses.

Please provide responses on a separate sheet of paper and return with your application.

Thank you.
